SUPPLEMENTATION

Supplements to this Code provide periodic updating through the removal and replacement of pages. This inter-leaf supplementation system requires that each page which is to be removed and replaced is identified so that the updating may be accurately accomplished and historically maintained.

Instructions for supplementation are provided for each supplement, identified by Supplement date and inclusive ordinance numbers. The Instructions for posting the removal and replacement of pages must be followed and accomplished in sequence, with the most recent supplementation posted **last**.

When supplementation is completed and the removal and replacement of all pages are accomplished, the Instructions should be placed under the Supplementation tab, behind this page, with the most recent Instruction sheet on top. Previous Instructions should not be removed, so that the user may refer to this tab section to verify whether the code book is fully updated with all supplements included.

The maintenance of a Municipal Code with all supplementation is an important activity which deserves close attention so that the value of the code is maintained as a fully comprehensive compilation of the legislative ordinances of the municipality.

AMENDMENTS

Amendments may be made to the Code by additions, revisions or deletions therefrom. Those changes may be made as follows:

Additions: Additions may be made by ordinance to the Code as follows:

The "Castle Rock Municipal Code" is amended by the addition thereto of a new Section 9.02.010, which is to read as follows:

CASTLE ROCK MUNICIPAL CODE

1994

A Codification of the General Ordinances
of the Town of Castle Rock, Colorado

Published by
COLORADO CODE PUBLISHING COMPANY
Fort Collins, Colorado

PREFACE

The Castle Rock Municipal Code, originally published by Book Publishing Company in 1982 and republished by Colorado Code Publishing in 1994, has been kept current by regular supplementation.

The code is organized by subject matter under an expandable three-factor decimal numbering system which is designed to facilitate supplementation without disturbing the numbering of existing provisions. Each section number designates, in sequence, the numbers of the title, chapter, and section. Thus, Section 18.12.050 is Section .050, located in Chapter .12 of Title 18. In most instances, sections are numbered by tens (.010, .020, .030, etc.), leaving nine vacant positions between original sections to accommodate future provisions. Similarly, chapters and titles are numbered to provide for internal expansion.

In parentheses following each section is a legislative history identifying the specific sources for the provisions of that section. This legislative history is complemented by an ordinance disposition table, following the text of the code, listing by number all ordinances, their subjects, and where they appear in the codification.

A subject-matter index, with complete cross-referencing, locates specific code provisions by individual section numbers.
